

# FREE Webinar Series

## Do Your Campus Administrators REALLY Know How to Analyze Data?

Don't miss this opportunity to take your data analysis skills to the next level and make more informed decisions for your school. Register now to reserve your spot!

### Webinar #1: The Basics

July 10, 2023

Transform your data analysis game! Our free webinar will guide administrators through the process of gaining a 30,000-foot view of their data. Discover how to tackle overwhelming amounts of data and pinpoint where to start.

### Webinar #2: The Intermediate

July 17, 2023

Maximize the potential of your STAAR data! Join our free webinar and learn how to systemize incoming data and get valuable insights for your school. Our experts will share free resources to help you organize and communicate your findings.

### Webinar #3: The Advanced

July 24, 2023

Join us for a webinar where we will showcase the powerful features of Eduphoria and OnDataSuite. Discover how an advanced user can gain a deeper understanding of their data to make informed instructional decisions for their campus.

presented by John Hinds

Each Webinar will be  
10 AM - 11 AM CDT on  
Zoom
